*April 13-14, 2007 Hearst Ontario*

---

Sustainability and growth of forest communities: The challenge in harmonizing bioeconomy, forest ecology and environment, and community resilience.

---

**This bilingual conference is open to all members of the communities: residents, politicians, students, industry and government representatives and all others having an interest in the progress of our regions.**

**Simultaneous translation will be available.**

**Dr. David Suzuki**

"The Challenge of the 21st Century, Setting the Real Bottom Line"
