

# Forest Vegetation Simulator (FVSOntario)\* Training

A facilitated workshop experience using FVS software to model silvicultural systems in complex stand structures

**February 5<sup>th</sup> & 6<sup>th</sup>, 2008 at the Canadian Ecology Centre in Mattawa, ON**  
**Cost is \$75 plus accommodations, meals are included in registration**

### Workshop Objectives:

To provide an interactive opportunity for participants to learn about the Forest Vegetation Simulator model by working through a variety of exercises using their own field data.

### BYOD (Bring Your Own Data) and learn how to:

- Create tree list input files for FVSOntario
- Simulate various silvicultural treatment options and compare results
- Simulate various planting densities
- Create tabular and graphical outputs
- Create visualization models of created scenarios for transfer activities
- Explore the full potential of keyword controls

*Don't miss your opportunity to evaluate and provide input on the beta version of this model to make it even more powerful and user-friendly in the future!*

**To register please contact hospitality services at 1-888-747-7577 ext. 0**

Space is limited so register now!

For additional information please contact Amanda Clouthier at [clouthier@canadianecology.ca](mailto:clouthier@canadianecology.ca)

Date and Time	Activity/Presentation	Speaker details
<b>Tuesday February 5<sup>th</sup></b>		
<i>Arrival at the Canadian Ecology Centre</i>		
12:00 – 1:00 pm	Light Lunch available	CEC – Birch Building
1:00 – 1:10 pm	Welcome and introduction	CEC Main Building – Oak Room Murray Woods
1:10 - 1:30 pm	Types of forest models – linkages and role in Forest Management Planning Activities	John Parton, <i>Growth and Yield Leader, OMNR, Northeast Science and Information, Timmins</i>
1:30 – 1:45 pm	A brief history of FVS's development in Ontario and the suite of options currently available in the model	Murray Woods, <i>Senior Analyst – Forested Landscapes, OMNR, Southern Science and Information, North Bay</i>
1:45 – 3:00 pm	Tree List Manager – TLM – preparing a tree list for FVS and SVS by importing existing data	AI Corlett, <i>Consultant</i>
3:00 – 3:15 pm	Break	
3:15 – 3:30 pm	Tree List Manager – TLM – preparing a tree list for FVS and SVS by entering data directly	AI Corlett
3:30 – 5:00 pm	Using FVS- Sim Prog to simulate treatment options I	Murray Woods
5:30- 7:00 pm	Dinner	CEC – Birch Building
7:00 - 8:00 pm	Canadian Institute of Forestry talk	John Pineau, <i>Executive Director, CIF</i>
<b>Wednesday, February 6<sup>th</sup></b>		
7:30 – 8:30 am	Breakfast	CEC – Birch Building
8:30 – 9:30 am	Using FVS- Sim Prog to simulate treatment options II	Murray Woods
9:30 – 10:30 am	graph and present tabular results – View Prog	AI Corlett
10:30 – 10:45 am	Break	
10:45 – 11:30 am	Create SVS outputs and movies of results	Murray Woods
11:30 am – 12:00 pm	Introduction to using keywords	AI Corlett
12:00 – 1:00 pm	Lunch	CEC – Birch Building
1:00 – 2:30 pm	Importing your own data	Murray/AI
2:30 – 3:20 pm	Facilitated discussion on models strengths, weaknesses and required modifications	AI Corlett
3:20 – 3:30 pm	Workshop evaluation	Participants
<b>Farewell and Safe Travels!</b>
